

The Narragansett Indian Tribe is hosting a free workshop in coordination with the USDA Natural Resources Conservation Service and Southern RI Conservation District

Tuesday, September 26, 2017

4:30-6:30 PM

Crandall Minacommuck Farm

Use 130 Pound Road as a GPS Address, but pass 130 and continue approximately 1/2 mile to the farm entrance

Westerly, RI 02891

To register, visit SRICD.com or call 401-934-0840

The Narragansett Indian Tribe is hosting this free event to showcase the work accomplished with USDA NRCS to protect **soil health** and **water quality** at Crandall Minacommuck Farm. Join us to learn about federal funding and technical assistance programs available to agricultural producers in Rhode Island for this work. This workshop and tour will also feature information about local soils and a demonstration with the NRCS Rainfall Simulator, which shows how different land uses and soil coverages are affected by rainfall and ultimately impact soil quality and health.

We hope you will be able to attend this free event to learn more about maximizing soil health and water quality on your property!

USDA NRCS is an equal opportunity employer, provider, and lender. If any reasonable accommodation is needed to ensure equal participation, please contact NRCS (401) 828-1300 at least two (2) business days prior to the meeting.
